

MÜLLER POWER CLUTCH

Müller's power clutch provides smoother and easier clutch lever operation. This is the perfect solution for everyone who experiences "heavy" clutch operation – including, apparently, 2006 and later Big Twin models which have a lighter action, still benefit from the installation of a Müller power clutch. Comes complete with instructions and all necessary hardware.

- 741236 Fits Sportster models 1984 thru 1993
- 741235 Fits Sportster models 1994 thru 2003
- 741237 Fits all Big Twin models 1987 to present
- 741546 Fits aftermarket Right Side Drive transmissions

NEW MOTORCYCLE STOREHOUSE CATALOGUE LAUNCHED NOW IN UK

Yes, folks. Volume 7 of MCS's parts catalogue is about to land at a dealership near you any time soon – no earlier than 6th April, but hopefully soon afterwards. Another envelope-pushing exercise from our Dutch friends, this time adding a massive 6000 new parts, and further refinements to its indexing system to make everything easier to find in its 1032 pages.

New suppliers have been added to make this "the most comprehensive catalogue on the European market", and with newcomers like Crime Scene Choppers, Hells Kitchen Choppers, Magura and John Doe and very many more, they might just be right. Expect to pay the equivalent of 6.50 Euro plus VAT.

BUTT GRABBER

It might have been nylon waterproof trousers, or your pillion sliding down the back of a Gunfighter seat under acceleration, or both – especially on a V-Rod – but there are times when you'll wish you had a better grip on your saddle, and now you can with Triboseat! An anti-slip mat for your seat. Tribology, the origin of the name, is the apparently science of friction.

Little more than a grippy rubberised mesh that is secured to your pillion seat by a drawstring or else is strapped on to the rider's seat as a simple pad, the good news is that it is available for Buell X1 and XB Lightnings, and XB Firebolts, but there are no listed Harley or Victory applications as yet. It doesn't look like a massive job to make one to fit, so I'd guess if a few VRSCA riders beat a path to AST's door, it wouldn't take them long to make up the pattern.

Prices from £13.99

ULTRA MOTORCYCLE RANGE NOW AVAILABLE IN THE UK

Remember the days when we used to show you American bikes that you couldn't get over here: well, looks like those days are gone. Ultra Motorcycles have appointed Three Spires Customs as the sole UK agent and importer of the pro stock and chopper style bikes – with an uncluttered Old School windcard for good measure – and they can supply you with a road legal, SVA'd motorcycle with prices starting at £17,900 inc VAT.

Alternatively, if you fancy putting one together yourself and have the tools and experience to do so, you can save yourself nearly four grand but lose many hours of your life putting it together, and buy one in kit form – with all the flexibility that doing it yourself offers. Kit prices start at £13,995.
